## About Company :

We VPC Care established in 2004 specialized in selling IT & Office Automation Hardware like Note-Books, Servers, Desktops Computers, Tablets, Printers and Multifunction devices, Displays, Smart Class Room Solutions. System integration and providing High end solution is our key focussed area. Our continuous effort towards customer's satisfaction and designing right solutions for the clients help us to become a well known and trusted organization of this territory.

Our strength is our engineers who are having a handsome experience of working with some top-notch companies in IT field and some of having certification of being Microsoft Certified Systems Engineer.

We offer educational institutions for campuses automation and full integration expertise revolving around :

-  **Digital Classroom**
-  **Video Conference**
-  **Virtual Classroom**
-  **Augmented Reality (AR)**
-  **Computer Cum English Language Lab**
-  **E Library Setup**
-  **Security Surveillance**
-  **Auditorium/Theatre**
-  **Automated Attendance**
-  **Wireless (WiFi) Campus**
-  **K-12 Content**

## Business Partners :

# Digital Classroom

Get ready to deliver a more Intelligent, Intuitive, Interactive and Immersive Experience in the classroom at all levels of education. The DTD come with advanced features i.e. fully secured and compact solution, interactive solution with poly vision e3 layer, sleek and lockable pc cabinet, short through projector with arm.

**Products :**  
Digital Teaching Device  
with inbuilt PC,  
Scanner,  
Animated Course  
Content

# Video Conference

Complete video conference solutions with multi-touch capabilities panel for seamless interactivity to create, collaborate and inspire. Now you can instantly transform any office or meeting space into a business-grade video conference room.

## ULTRA HD 4K DISPLAY WITH SEAMLESS CONNECTIVITY FOR VIDEO CONFERENCE

### Products :

Interactive Flat Panel,  
VC Camera  
with wireless MIC,  
Acoustic wall,  
Software

#### SCREEN CAST

An ultimate experience in screen sharing. Create, write or share files and videos directly from your screen or make changes to share in real time.

#### 4K DISPLAY EXPERIENCE

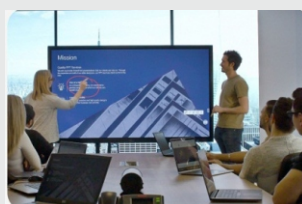

Clear and sharp picture with enhanced visibility from a wide angle, with the optically bonded glass layer.

#### MULTI-TOUCH RESPONSIVE

More hands on interaction with upto 20 touch points. Enhances user experiences in collaboration and team work.

## Virtual Classroom

It accurately measures the learning and the learning gaps of students by using the latest in AI technology. Promotes Independent Learning while maintaining continuity from school to home. Students can access learning modules mapped to their curriculum at home, while at the same time, guardians and teachers can follow and measure the student's performance.

### A HOLISTIC APPROACH AT LEARNING

**Products :**  
INTERACTIVE FLAT  
PANEL,  
PTZ Camera,  
Wireless Collar Mic,  
Cloud based VC  
solution for 1 year  
along with screen  
share and recording  
based Video  
conferencing licence  
( 1 Host + 100 Users )

## Augmented Reality (AR)

Augmented reality in education can serve a number of purposes. It helps the students easily acquire, process, and remember the information. Additionally, AR makes learning itself more engaging and fun.

It is also not limited to a single age group or level of education, and can be used equally well in all levels of schooling; from pre-school education up to college, or even at work.

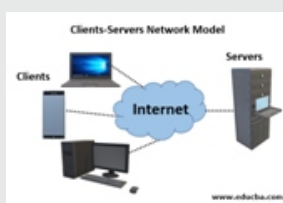

**Products :**  
Hardware,  
Smart Phones,  
Smart Glasses,  
Apps and Software

## Computer Cum English Language Lab

Activity based learning method stimulates students to learn languages by doing, Manage language classes more effectively and improve your students' results easily by 30 %.

Increases the time students spend speaking and actively learning during classes and this improves their overall Saves time for teachers by allowing them to drag and drop exercises to students and collect them back automatically Improves even the most difficult parts of language learning, like pronunciation and intonation, with model imitation and a wide array of discussion activities

### Products :

Computers / Ups  
Server / Headphone  
MIC / LAN  
English language  
LAB software

## E-Library Setup

**KOHA** is a fully featured, scalable library management system. Development is sponsored by libraries of varying types and sizes, volunteers, and support companies worldwide **KOHA** is a true enterprise-class ILS with comprehensive functionality including basic and advanced options. **KOHA** includes modules for acquisitions, circulation, cataloguing, serials management, authorities, flexible reporting, label printing, multi-format notices, offline circulation for when Internet access is not available, and much more.

### Products :

Computers  
Server with  
digital Library  
**KOHA**  
implementation

## Security Surveillance

Safeguarding the well being of all students and staff is a primary concern for schools today. A properly installed system of school security cameras is an important tool for ensuring safety on school grounds. Schools facing challenges such as violence or vandalism on campus find school security cameras an indispensable aid to identifying and resolving issues as they arise.

### Products :

CCTV

NVR

STORAGE

## Auditorium/Theatre

The auditorium is a central and important space in any school lucky enough to have one. It is used for all types of formal assembly: lectures, award ceremonies, dramatic plays, musical theatre productions, concert performances of orchestra, band, chorus, jazz band, battles of the bands, dance competitions and so on. These varied events place a range of demands on the room. For all events, it is essential that everyone in the room hear, clearly and enjoyably, everything that is presented.

Digital Podium is an all in one multimedia presentation device. With its easy to use motorized tilt touchscreen, it's never been more convenient to work through a presentation.

### GEAR UP FOR DELIVERING AMAZING PRESENTATIONS

### Products :

Projector Screen,

Amplifier,

Speakers,

Projector,

MIC,

Digital Podium

## Automated Attendance

Most of the educational institutions still utilize the traditional paper method to mark attendance. This is both paper and time-consuming. By utilizing RFID Systems into the daily activities of students, data can be well organized and recorded.

The RFID method has enormous benefits. With it maintaining daily attendance on Excel sheets could be avoided, labor can be reduced, the monthly attendance record of staff and students can be assembled in a single place and format.

**Products :**  
RFID based  
attendance for  
every student .

## Wireless (WiFi) Campus

There are countless reasons your school needs a great WiFi network and in this article we are going to go over some of the key benefits your school will receive from installing one.

- ✓ Prepares Students For Real Life
- ✓ Helps Students Develop Key Teamwork Skills
- ✓ Makes School Work More Accessible
- ✓ Creates More Inclusive Learning Styles For Students
- ✓ Makes Students Learn Faster

**Products :**  
Outdoor / Indoor  
wireless Solution

## K-12 Content

At the core of smartclass is a vast repository of digital rich-media content across grades K-12 mapped to meet the specific objectives laid out by the central and state boards across the country. The content is available across 12 boards and 5 regional languages in addition to English, Hindi, Marathi, Gujarati, Tamil and Kannada.

The content offers comprehensive coverage and is mapped to chapters/topics of books prescribed for CBSE board in subjects such as Math, EVS, Science, Social Science, Commerce, and Arts.

**Products :**  
NCERT approved  
animated content  
for Kindergarten  
to K12  
(Hindi & English  
Language)
